

τ_{gen} RMS jerk (N-m/s) [lower = smoother] — all parameter pairs

Min tether tension (N) [higher safer] — all parameter pairs

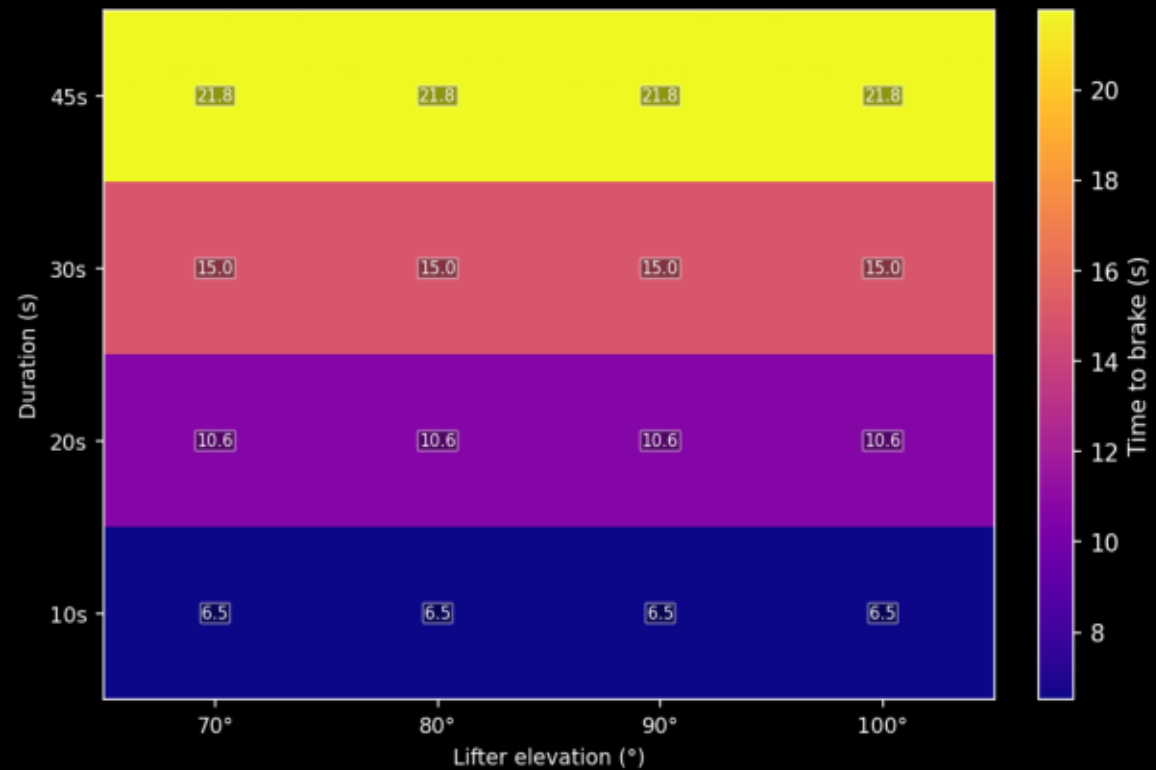

Mean time to brake (s) — duration × lifter elevation

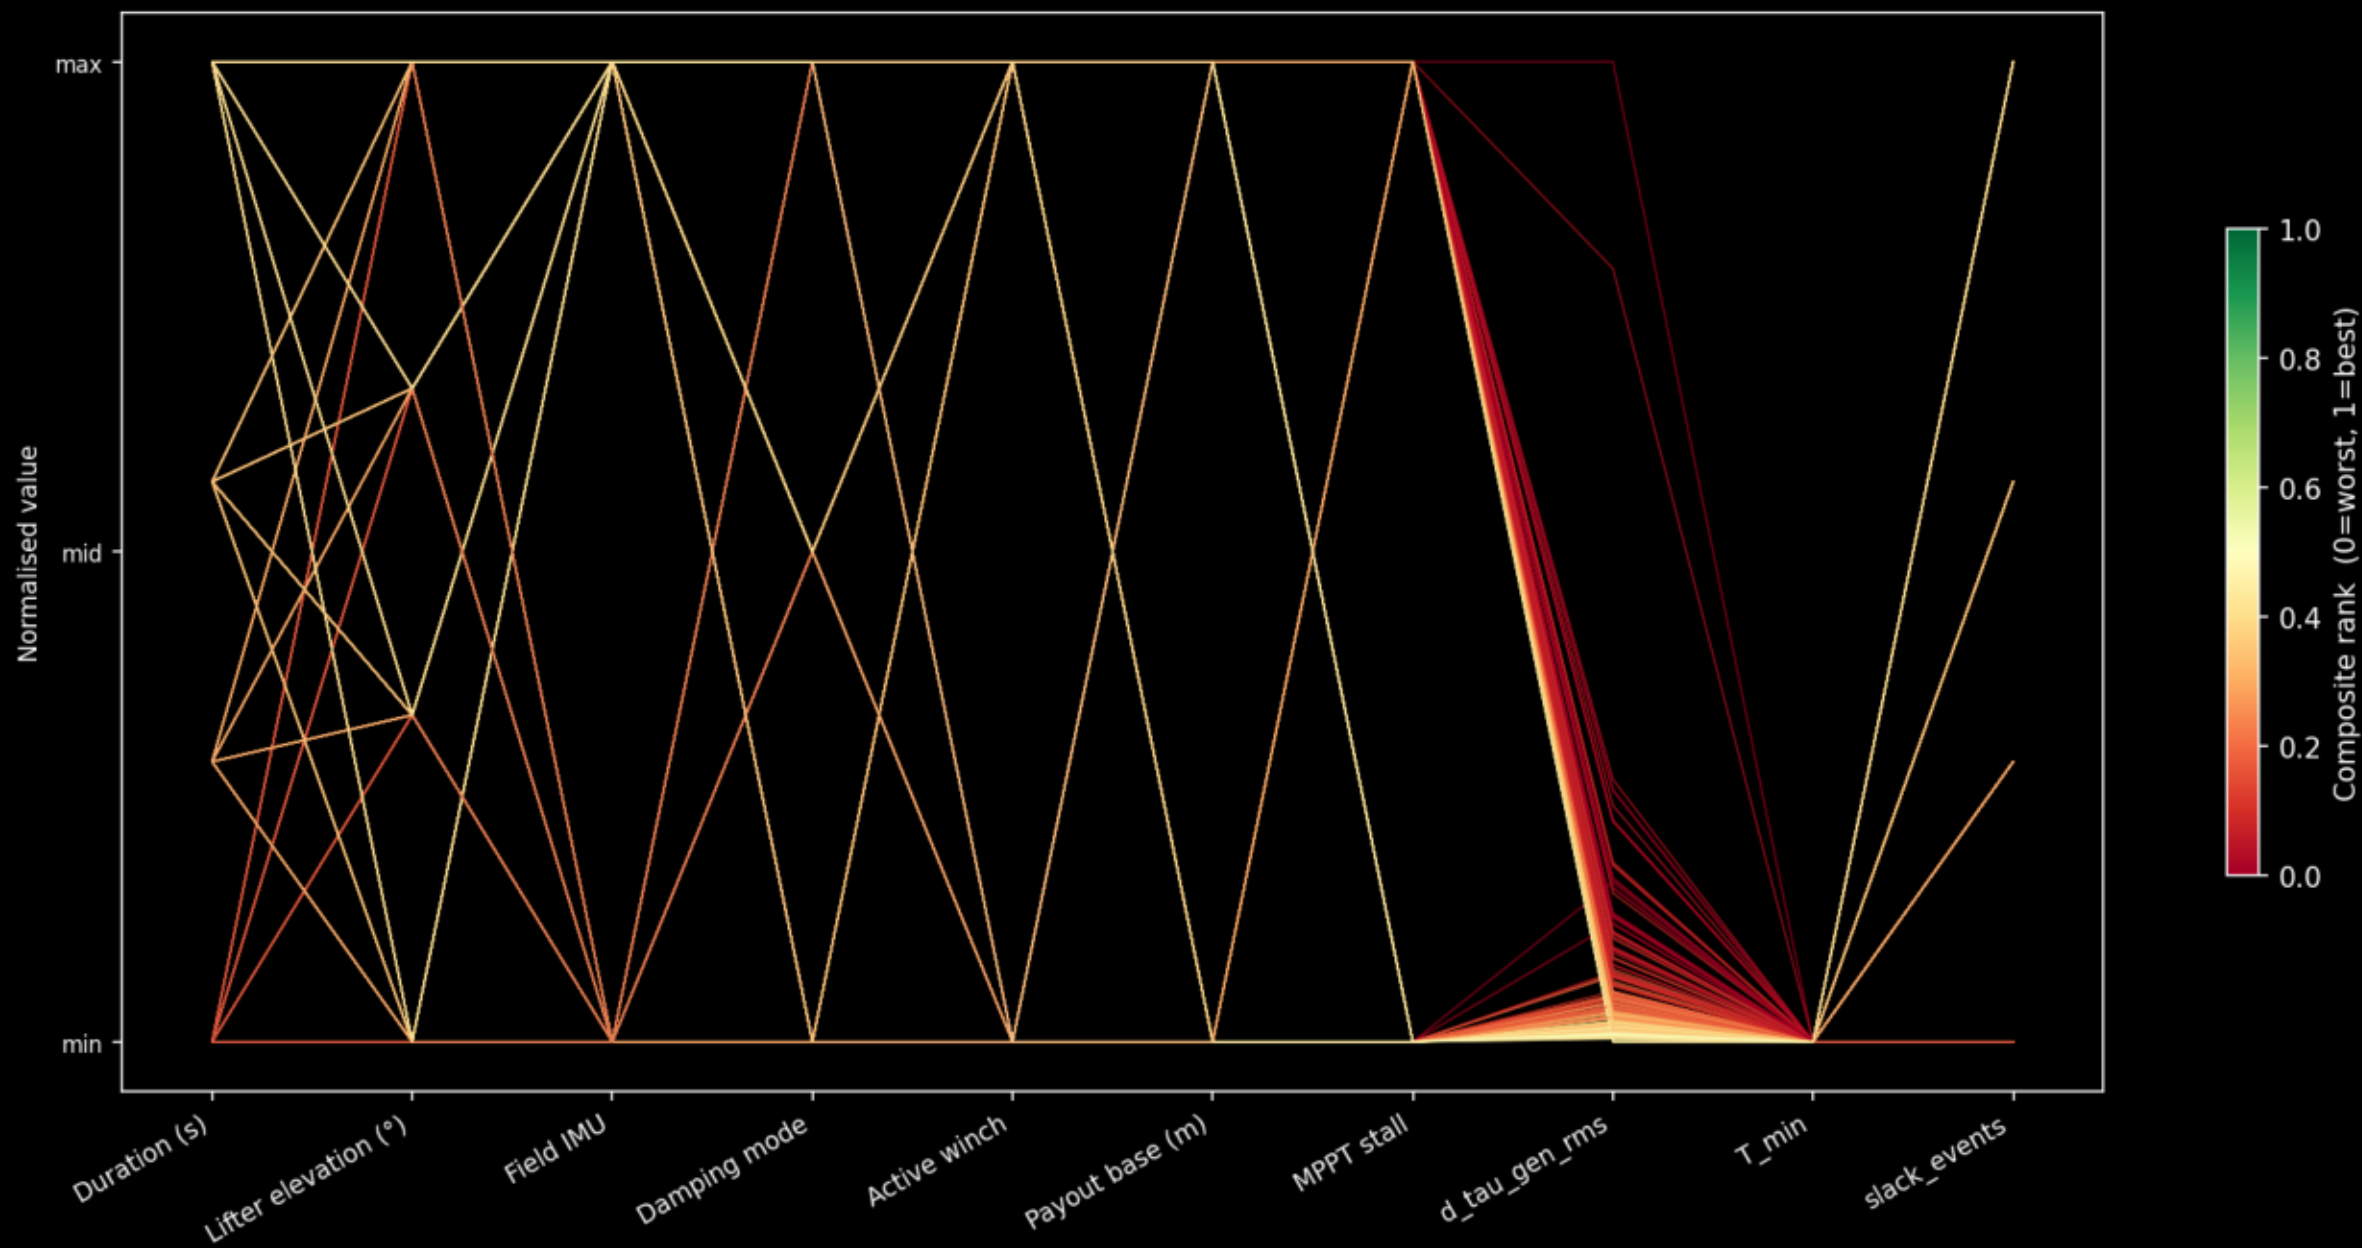

Field IMU: OFF

Field IMU: ON

Parallel Coordinates — all 768 runs
(each line = one run; colour = composite rank: green=best, red=worst)

Top 20 and Bottom 20 Runs — Composite Rank

Top 20 (green = best)

Bottom 20 (red = worst)
