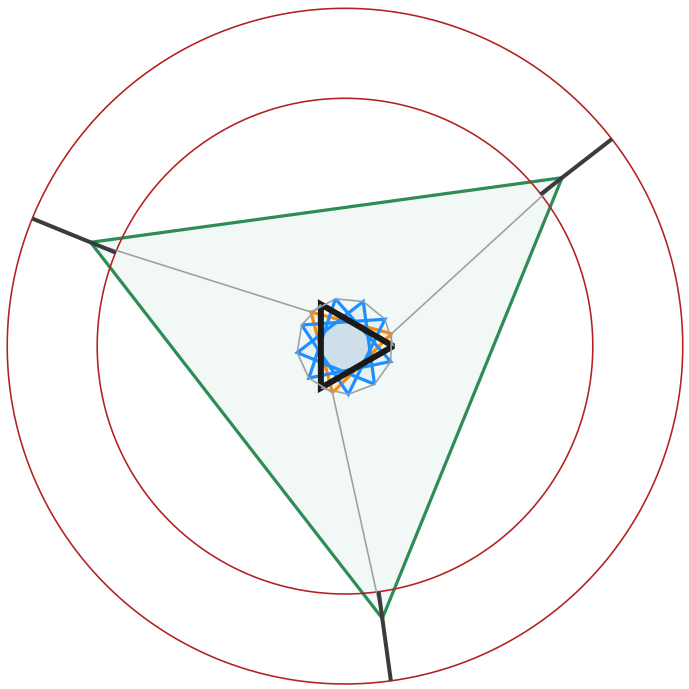
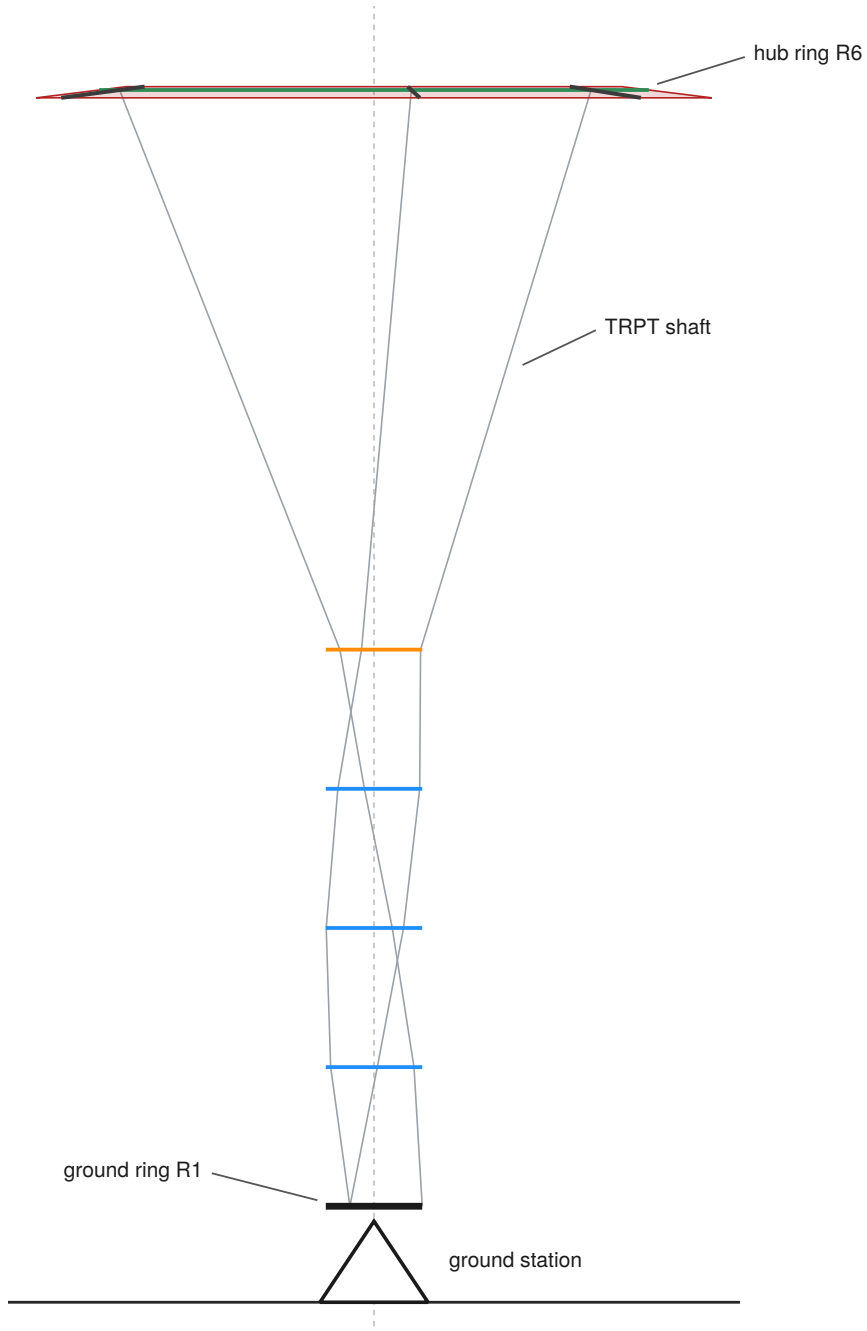
The island-3 winner at its operating point: plan, side and downwind

Built geometry with the recorded wind-up: six rings, three lines, one rotor (NR-011); per-segment twist at the final operating step (NR-022).

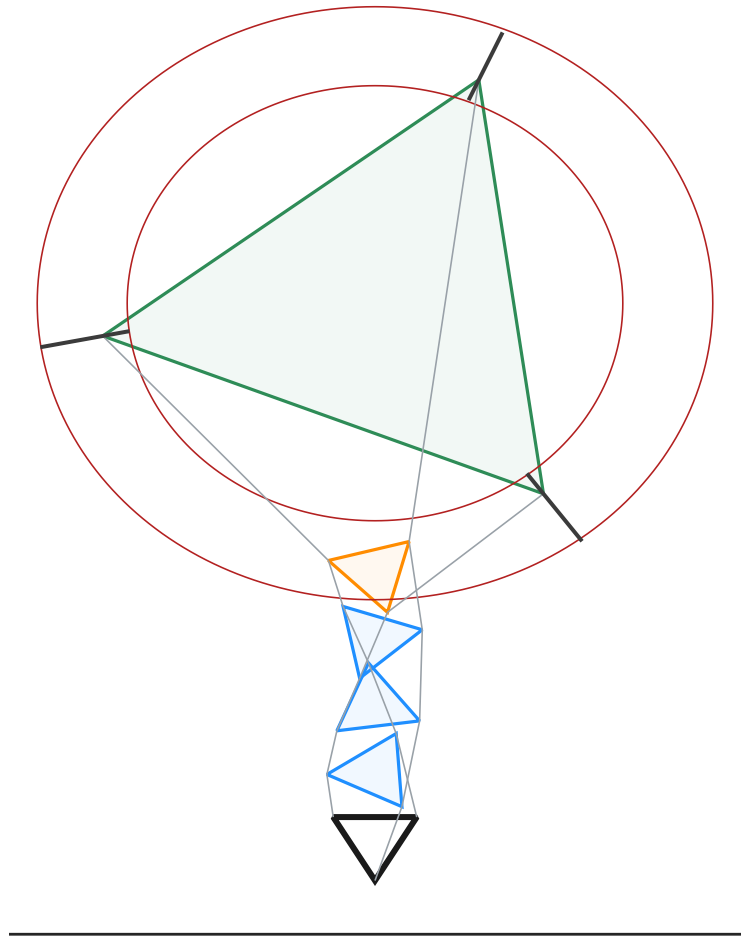
Ring stations read at the same step (NR-021). One scale holds across the three views. Blades: three, span 1.499 m (NR-043).



plan — looking along the shaft



side — the shaft frame



downwind — along the wind

ground ring · ring, transmission · ring, cone · ring, harvest · swept annulus · blade · TRPT lines · ground station — schematic
