The island-3 winner at its operating point: plan, side and downwind

Built geometry with the recorded wind-up: six rings, three lines, one rotor (NR-011); per-segment twist at the final operating step (NR-022).

Ring stations read at the same step (NR-021). One scale holds across the three views. Blades: three, span 1.499 m (NR-043).
